# NIGHT

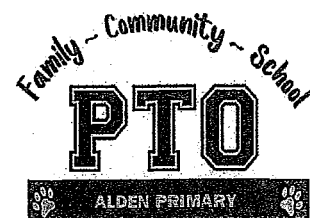

Join us for our first-ever STEM Night at Alden Primary School! Browse the displays or present your own project to your classmates!

**Who:** K-2 Students and Families

**Where:** Alden Primary School Cafeteria & Gym

**When:** Friday, October 21<sup>st</sup> from 6:00 – 8:00 PM

**What:** Students can come as guests, or choose to be a presenter. If presenting, students can design a STEM display and discuss their project to those walking around. Parent involvement is encouraged, and the options are endless! Sample displays could include anything from the fields of science, technology, engineering, and mathematics. A research project on an endangered species? Sure! A working Rube Goldberg machine? Definitely! A replica of the Statue of Liberty built with macaroni? Bring it on! Our Alden HS Robotics Club will even be displaying their skills!

All students must be accompanied by an adult to attend. Students should remain with their chaperones at all times. Food will be available for purchase and money raised will help support Alden Youth Baseball & Softball. If your child would like to be a presenter, please return the slip below to their teacher by **Friday, October 7<sup>th</sup>** so we can reserve a space! All presenters will have an 18" x 24" surface to set up on. If your child's project requires any special set-up needs, please indicate this. All presenters will receive confirmation of their requests.

Yes, I want to present my idea at STEM Night on Friday, October, 21<sup>st</sup>!
